THE ADVENTURES OF CURIOUS GEORGE

A first rate adventure story about *Curious George*, a little monkey who is too curious for his own good. The show follows *George's* escapades as he travels from Africa to his new home in America. *George* finds himself running from "monkey eating alligators", riding his new bike, going to his first day of school, visiting the doctor, and even taking a ride to outer space! Everything *George* sees is new and exciting and children love accompanying him as he explores his new environment. Although his curiosity gets him into trouble, with the help of his guide and guardian, The Man in the Big Yellow Hat, everything turns out just fine. Your children will talk about *Curious George* for weeks. This is the show for your tiny tots to see!

Appearing at:

"The children truly enjoyed one of their favorite storybook characters "come to life". Many of the students went home, still excited from the experience, and spent a good deal of time telling about what *Curious George* did!" - Mrs. Schad, Teacher at Central Elementary
