## *The Three Mess-keteers*

An Environmental Adventure  
by Gina Montet

The Kingdom of Clean is in despair due to the dastardly Duke of Dirt who has trashed the territory, polluted the ponds and fouled the forests with his rubbish. The Three Mess-keteers have been called to rescue the revered resources and exact environmental justice. The Mess-keteers' quest takes them to the three corners of Clean where the Duke has deployed his Nasty Knights to dump and destroy the natural treasures of the kingdom. Through quick action, clever thinking and of course some creative clean up, the Mess-keteers are able to put a stop to the Dirty Duke's deeds and rescue the Kingdom of Clean. Loosely based on *The Three Musketeers* by Alexander Dumas.

**Teacher Guidelines:** Supports Sunshine State Standards for Ecology and Literature for Grades K-6.

Appearing at:

"My 1st and 2nd grade students were so enthralled with the play that I didn't hear a peep out of them. The message was loud and clear but lighthearted to hold the students' attention."

- H. Parker, Assistant Principal at Devon Aire K-8 Center
